

UNIVERSITY PARK CITY COUNCIL AGENDA MEMO

Meeting Date:
9/19/2023

Item Type:
Action Item

Subject: Professional Services Addendum for Miracle Mile Reconstruction

Prepared By: Katie Barron, PE, ENV SP, City Engineer

Background:

At the April 20, 2021 City Council Meeting, Council approved a design services contract with Huitt-Zollars (HZ) to provide survey, utility, roadway, traffic signal, landscaping, lighting, and drainage design, and associated design efforts, in preparation of full construction documents for the Miracle Mile reconstruction project.

At the February 21, 2023 City Council Meeting, Staff provided an update on various modifications to the approved Concept, necessitated through the design process. This included options associated with the Lomo Alto and Lovers Lane intersection, and Staff requested feedback from Council at that time. Council directed staff to incorporate a protected pedestrian crossing at the southern leg of Lomo Alto and Lovers Lane.

The attached proposal includes scope and fee for evaluating the feasibility of a Hybrid Pedestrian Beacon System (HAWK) at the Lomo Alto and Lovers intersection, as well as plan modifications necessary to incorporate that system. This addendum also includes additional scope previously added to the plan set at Staff's request.

The attached HZ proposal in the amount of \$57,090 provides scope and fee for this additional work to be added to the original scopes of work.
