

**Regional Stormwater Management Program
Appendix A
FY2014 Work Program Deliverables**

Local Government Participation and Oversight

- Act as a liaison between regulatory agencies and permitted MS4s as needed
- Maintain communication and regular opportunities for the exchange of information between participants, RSWMCC members, and NCTCOG staff
- Assist local governments with SWMPs and RDIs as needed
- Continue exploring and developing ideas for RDI projects through the RDI Task Forces
- Coordinate up to two county roundtables contingent upon request from three participating counties
- Conduct four RSWMCC meetings
- Provide support for up to two RSWMCC work sessions to discuss strategy and other permit-related issues
- Coordinate at least one round of cooperative purchases
- Track regulatory information and provide updates at meetings and through other means
- Administer contracts and budget
- Represent regional program at local, state, or national conferences as feasible
- Seek funding, through grants or other sources, for additional programs or projects as feasible
- Coordinate with other NCTCOG programs to avoid duplication efforts

Regional Stormwater Resource Center

- Maintain and update www.dfwstormwater.com
- Solicit and compile information on regional and national stormwater experiences as necessary
- Develop up to six news articles for regional newsletters

Public Education

- Conduct at least four Public Education Task Force meetings
- Coordinate *March is Texas SmartScape® Month* activities
- Maintain SmartScape Web
- Compile SmartScape Web statistics
- Conduct stormwater seasonal campaigns (fall, spring and summer) covering topics such as pet waste (*DOO the Right Thing*), yard waste, used cooking oil and construction site pollutants, addressing general stormwater issues and green business certification
- Develop a video to educate an specific industry about stormwater and best management practices
- Explore and conduct other educational campaigns as feasible
- Facilitate cooperative purchasing of media as feasible
- Maintain and promote regional events calendar
- Prepare an activity report documenting the Public Education Task Force-related activities to participating entities
- Consider additional/modified public education activities for future work programs

Illicit Discharge Detection and Elimination (IDDE)

- Conduct four meetings of the IDDE Task Force
- Develop RDIs for IDDE in future work programs
- Conduct one workshop for municipal industrial stormwater inspections
- Collect detailed case studies on IDDE problem resolution and share information at IDDE meetings; selecting some for inclusion on a NCTCOG web page
- Become a clearing house for IDDE contacts for mutual information (including general contact information)
- Study the potential modification of existing materials or development of new to include more mention of bacteria. For example, training materials, field investigation guide, and the industrial inspector guide
- Research and determine feasibility of a hotline and/or web reporting for IDDE

Municipal Pollution Prevention

- Conduct at least 4 meetings of the P2 Task Force
- Develop “minute videos” that highlight specific training details from the previously produced material
- Conduct Peer 2 Peer Education and Sharing opportunities as feasible
- Promote the current P2 training modules and resources as needed
- Develop RDIs for P2 in future work programs

Regional Cooperative Monitoring

- Oversee consultant activities as necessary
- Manage contracts and billings for monitoring services
- Maintain communication with Monitoring Task Force on consultant activities
- Maintain www.dfwstormwater.com site with sampling updates and data
- Conduct Monitoring Task Force meetings as needed
- Complete annual regional monitoring report and submit to TCEQ by March 1 deadline
- Send digital copy of Final Report to participants
