

# Trees for University Park Reforestation Program

## 2022-23 | ORDER FORM

The Trees for University Park Program (TFUP) was established in 1982. Since then, the program has served as a major source of reforestation for the City of University Park. Our program offers two ways in which you, as a homeowner and resident of UP, can participate to keep the city aesthetically pleasing for future generations.

### Parkway Planting

Parkway trees provide reforestation by planting trees on the parkway area of your property. The parkway is the grassy area between the sidewalk and the street curb. Parkway trees are \$150 each, and include the following:

- 30 Gallon, Container-Grown Tree
- Approximately 2" Trunk Diameter
- Height of 8 - 10'
- Planted in the parkway by the Park Dept.
- Homeowner is responsible for the care and maintenance of the tree

### Available Varieties:

[Cedar Elm](#) | [Chinquapin Oak](#) | [Live Oak](#) | [Red Oak](#)

### Private Property Planting

Private property planting allows for the homeowner to purchase a smaller tree for their property from the Parks Department at a wholesale price. Private property trees are \$75 each, and include the following:

- 10 Gallon, Container-Grown Tree
- Approximately 1" Trunk Diameter
- Height of 6 - 8'
- Delivered to your home by the Parks Dept.
- Homeowner is responsible for planting of the tree, as well as care and maintenance.

### Available Varieties:

[Bur Oak](#) | [Cedar Elm](#) | [Chinquapin Oak](#) | [Live Oak](#) | [Red Oak](#)

Bur Oak

Cedar Elm

Chinquapin Oak

Live Oak

Red Oak  
"Shumard"

### Leaf Samples

Orders for the TFUP program are accepted each year from **October 1<sup>st</sup> – December 31<sup>st</sup>**. Your trees will then be planted and/or delivered by late January to early February. Once planted or delivered, the care and maintenance of the trees become the responsibility of the homeowner. Survival of the trees is not guaranteed. However, the trees are handpicked by our city Urban Forester, and the survival rate has been very good over the course of our program.

For more information about available tree varieties, or additional questions about the program, please contact the Parks Department at 214-987-5488.
