

January 18, 2025

Dear City of University Park Officials,

I am writing to express my enthusiastic support for de Boulle's proposal to convert their building into a Patek Philippe Boutique. As the owner of Vitalyc Medspa and a proud neighbor of de Boulle for the past five years, I can confidently attest to their commitment to excellence, both in their craft and in the way they enhance the prestige of our community.

De Boulle has established itself as the epitome of sophistication in the world of fine jewelry and watches—not just in University Park, but nationwide. Their reputation for quality, craftsmanship, and exceptional customer service aligns perfectly with the values that our city holds dear. By transforming their location into a Patek Philippe Boutique, de Boulle will elevate our community's profile even further, attracting discerning clientele and reinforcing University Park's status as a hub for luxury and refinement.

This project is more than just a business endeavor; it is an opportunity for University Park to solidify its reputation as a destination for world-class luxury. A Patek Philippe Boutique will undoubtedly draw visitors from across the region and beyond, benefiting local businesses and contributing to the economic vitality of our city.

I have personally witnessed de Boulle's unwavering commitment to our neighborhood, not only through their stunning showcase of fine goods but also through their deep involvement in the community. Their presence has always been a source of pride, and I have no doubt that this transformation will further enhance their positive impact on University Park.

I urge the City of University Park to approve de Boulle's proposal and support their vision. It is a rare opportunity to bring something truly special to our community, and I am confident it will be an incredible asset for our city and its residents.

Thank you for your time and consideration.

Sincerely,

Amir Darius Mortazavi

Zoning Change and Amendment Process

A request for a zoning change follows a two-step process designed to provide opportunities for citizen involvement and comment. The first step following the submission of an application for a zoning change is to schedule a public hearing before the Planning and Zoning Commission. Landowners within two hundred (200) feet of the subject site are notified of the Planning and Zoning Commission public hearing. They are provided this response sheet and are invited to attend the public hearing to express their support or opposition to the request. Second, the request is forwarded to the City Council for final action following a recommendation from the Planning and Zoning Commission. If the owner(s) of more than twenty percent of the land area within two hundred feet of the site submit(s) written opposition, then a three-fourths vote of all the eligible members of the City Council is required to approve the zoning change. These forms are used to calculate the percentage of the property in opposition.

NOTE: Site plans or zoning details proposed by the applicant, may change before or during a public hearing and after this notice. However, these changes must be minor and more restrictive. If they are not minor and more restrictive, another notice must be made.

Subject: Notice of Public Hearing PZ 25-002

Hi Ms Rees,

My name is John Eklof. I own the property at 4117/4119 Grassmere.

I've looked through the literature on the proposed building changes. I don't have a problem with upgrades to our neighborhood. I look forward to seeing the completed project. My concerns are with project duration and access to Preston.

- What is the estimated completion date of the phase 4?

- The people living on Grassmere, just west of Preston, have one option when it comes to leaving their homes. They must travel east to Preston as Grassmere is a one way street. Does the city have a plan to ensure free travel to Preston Rd for it's residents during all phases of the construction project?

Forgive me if these questions have already been addressed in a different forum and thank you the opportunity to comment.

Vr,
John

Re: De Boulle Rezoning Request

Dear Neighbors,

We are thrilled to share something close to our hearts—a new chapter for de Boulle Diamond & Jewelry that we hope will further strengthen our place in a neighborhood we've been proud to call home for over 40 years.

Since opening our doors in 1983, de Boulle has been more than a fine jeweler—it's been a part of the fabric of University Park celebrating with families and friends. With that in mind, we are proposing a thoughtful renovation of our building. Our goal is simple: to preserve what makes de Boulle special while enhancing the space to serve our clients—and our neighborhood—for generations to come. This is not about growing bigger – it is about growing better alongside Patek Philippe. Our goal is to create an upscale, timeless environment with one of the world's most exclusive watchmakers that will serve our long-term clients, their children, and their grandchildren for the next 50 years and beyond.

The full scope of the renovation includes:

- Expanding our Patek Philippe Salon into a Boutique, as requested, to meet the expectations of their brand and maintain our position as one of a select few U.S. retailers.
- Adding minor square footage to improve operational efficiency and allow our current team to remain under one roof.
- Creating covered and secure parking to enhance safety and convenience for clients and staff.
- Building a refined upstairs space with spectacular views for hosting intimate client and community gatherings.
- Updating the building's façade with timeless materials that complement the neighborhood's character.

As your neighbor in Volk Estates, we appreciate the support we've received over the years. We have been intentional in keeping the building's scale and design in harmony with what our neighbors expect and value. This renovation isn't about getting bigger—it's about creating a space that reflects the level of care, craftsmanship, and tradition that we have always stood for.

Our goal is simple: to preserve what makes de Boulle special while enhancing the space to serve our clients—and our neighborhood—for generations to come. This is not about growing bigger - it is about growing better alongside Patek Philippe. Our goal is to create an upscale, timeless environment with one of the world's most exclusive watchmakers that will serve our long-term clients, their children, and their grandchildren for the next 50 years and beyond.

The full scope of the renovation includes:

- Expanding our Patek Philippe Salon into a Boutique, as requested, to meet the expectations of their brand and maintain our position as one of a select few U.S. retailers.
- Adding minor square footage to improve operational efficiency and allow our current team to remain under one roof.
- Creating covered and secure parking to enhance safety and convenience for clients and staff.
- Building a refined upstairs space with spectacular views for hosting intimate client and community gatherings.
- Updating the building's façade with timeless materials that complement the neighborhood's character.

As your neighbor in Volk Estates, we appreciate the support we've received over the years. We have been intentional in keeping the building's scale and design in harmony with what our neighbors expect and value. This renovation isn't about getting bigger—it's about creating a space that reflects the level of care, craftsmanship, and tradition that we have always stood for.

We deeply appreciate the support, and if available, we would be so honored to have your support again at the public rezoning hearing:

Re: de Boulle Rezoning Request

Dear Neighbors,

We are thrilled to share something close to our hearts—a new chapter for de Boulle Diamond & Jewelry that we hope will further strengthen our place in a neighborhood we've been proud to call home for over 40 years.

Since opening our doors in 1983, de Boulle has been more than a fine jeweler—it's been a part of the fabric of University Park celebrating with families and friends. With that in mind, we are proposing a thoughtful renovation of our building. Our goal is simple: to preserve what makes de Boulle special while enhancing the space to serve our clients—and our neighborhood—for generations to come. This is not about growing bigger - it is about growing better alongside Patek Philippe. Our goal is to create an upscale, timeless environment with one of the world's most exclusive watchmakers that will serve our long-term clients, their children, and their grandchildren for the next 50 years and beyond.

The full scope of the renovation includes:
