APPLICANT: \_\_\_\_\_ ADDRESS: \_\_\_\_\_

Deboulle Diamonds is requesting approval for a Planned Development (PD) to revitalize and remodel its existing facility located at 6821 Preston Rd. This transformation aims to update the store's design and enhance its image, while maintaining the high-end, luxury nature of the business. The proposed remodel will align the building with the standards of upscale, Class A luxury shopping destinations, providing a more modern and elegant aesthetic.

**Building Design & Façade Renovation:** The existing building will undergo a comprehensive update, with an entirely new façade to reflect a more modern and refined architectural style. This change will enhance the store's exterior and improve the overall streetscape in alignment with the upscale branding of Deboulle Diamonds.

**Structure and Building Size:** The building will be reduced to a two-story structure, with no increase in the total floor area. The floor space will remain the same, with a 25% reduction in overall area. The current structure is capable of supporting a new roof design, which will incorporate a sloped roof to enhance the building's architectural appeal.

**Use and Functionality:** The use of the building will remain unchanged as a jewelry store. The upper level of the building will be designated as a "multifunctioning" room, which may serve a variety of purposes, including display areas, office space, or event hosting, in keeping with the business's evolving needs.

**Height and Setback:** The building will maintain its height at 46 feet, consistent with the existing structure. The roof design and overall massing will remain in compliance with all local zoning codes and regulations.

**Family Transition:** This remodeling project is an important step in the transition of Deboulle Diamonds to the second generation of the family business. The upgrade will position the business for continued success while preserving its long-standing reputation as a premier jewelry store in the community.

This Planned Development will revitalize the Deboulle Diamonds facility, ensuring its continued role as a destination for luxury shoppers while also contributing positively to the surrounding area's architectural and aesthetic standards. The proposed improvements are designed to elevate the building's functionality and appearance, ensuring that Deboulle Diamonds remains a staple in the community for years to come.
