Proposed installation of in-ground spa, feature wall (associated equipment) and landscape within courtyard area of residence.

Initial preparation phase to include removal of existing paving materials beyond residence foundation and portions of existing courtyard hardscape for access to revise existing structural foundation. De-tension post tension beams, remove portions of beams and re-tension as specified by structural engineer (see Engineers plan). Install new steel reinforced concrete foundation structure for proposed spa and protection of existing perimeter beam element.

Installation of formwork, steel, plumbing and gunite of proposed spa; construct raised feature wall with cmu, and veneer using stone and decorative tile; placement of spillway feature.

Placement of associated equipment (pumps, heater, filter, and electronics) per plan with gas service to heater and electrical connection to residence service. Installation of plumbing run between spa and equipment.

Removal of existing courtyard paving material and replace using decorative stone with banding edge detailing and field.

Installation of pathway hardscape with stepping pads for access between gated entry to covered terrace area and to rear garden areas.

Landscape installation to include relocation of (3) existing Holly trees, (3) new Eagleston holly - 100 gallon, artificial turf, and Tejas granite aggregate.
