Re: City of University Park  
Appendix A  
Fee Schedule

---

In July 2013 the City of University Park's Service Agreement with the East Dallas Veterinary Clinic was terminated. After an extensive search, no other veterinary clinic or area city was able to assist with animal impoundment services.

Currently, the city is working with All American Dogs for animal impoundment services. This change has made it necessary to increase the animal impoundment fee from \$50 per day to \$75 per day to off set the new higher fees.

Please submit that change to City Council for approval in the near future. Note that a service agreement with All American Dogs will be presented to the City Council for approval on September 10, 2013.

Let me know if further information is needed for this request.

Thank you.
