City of UP P&Z and Council Members.

My name is Brad Heiss. I live at 3425 Westminster Ave, Dallas, TX 75205 and have 4 kids at University Park. I fully support the UP Elementary Sports Court. This project addresses many safety and usability issues on the UP Playground and is vital for the school and the community.

To whom it may concern -

I am writing regarding the University Park Elementary playground. As it sits now, the west edge of the basketball court is nothing but dirt. After a rain event mud spills onto the basketball court creating a slippery condition that must be remedied before students can play on the court. Even after the field and playground areas are dry enough for activities this area remains muddy and students track mud onto the basketball court. The Sports Court project provides an improved surface buffer zone on the west side of the court and eliminates the safety/maintenance hazard that currently exists.

Thank you.

Heiss Family

Thank you again.

My name is Lucky Cullum. I live at 6600 Turtle Creek Blvd and have 7 grandchildren in district- 4 at UP-3 coming kids at UP. I fully support the UP Elementary Sports Court. This project addresses many safety and usability issues on the UP Playground and is vital for the school and the community.

Dear Sirs,

I am writing this letter to let you know of my strong support for the sport court improvements proposed at University Park Elementary School. The sport court was a great addition to the school made possible by the support of many many

families. But there is still work to do. The extra paving and shade structure will make it better in so many ways.

Accessibility for the disabled, safety for our kids, and much needed shade for the playground as well as sport court

will benefit hundreds of our kids each day.

I have four grandchildren currently enrolled at UP with three more on the way. This will be good for all of them, as well as countless others.

Please approve this without delay.

Lucky Cullum

Mrs. Robert Brooks Cullum, Jr.

Thank you again.

Lucky Cullum

6600 Turtle Creek Blvd

City of UP P&Z and Council Members.

My name is Josh Griswold. I live at 3808 Amherst, University Park, Tx and have 2 kids at University Park. I fully support the UP Elementary Sports Court. This project addresses many safety and usability issues on the UP Playground and is vital for the school and the community.

The playground area needs shade for the teachers while supervising the children and for the children to rest in. The prior trees provided shade, but prevented healthy grass growth. Thus, the area was prone to mud. A man made shade structure with a man made surface beneath would provide shade and obviate the need for grass. Trees could be planted elsewhere, for example along the fence line West of the playground, to address aesthetic and environmental concerns.

Thank you again.

Josh Griswold  
3808 Amherst, University Park, Tx

My name is Brian Collett. I live at 3700 Bryn Mawr and have 3 kids at UP Elementary. I fully support the UP Elementary Sports Court. This project addresses many safety and usability issues on the UP Playground and is vital for the school and the community.

We are in need of improving our sports court outside as well as additional shade especially with our Texas heat.

#### Accessibility:

Currently the UP playground doesn't have sufficient improved surfaces for students with mobility limitations and access issues to fully participate with peers at play. This project creates a direct path from the existing ADA playground surface to shelter under a new shade structure and to the accessible ground surfaces through wheelchair accessible routes without having to go through the basketball court. This direct path will help students with mobility issues interact with their fellow students in a central area. The Sports Court renovations offer our children accessible routes, clear floor and ground spaces, and will make the playground safer and more accessible for all the students at UP and after hours for all children in our community.

University Park is one of the most used grounds facilities of any campus.

#### Shade

Additional shade is a huge need for children at play on the UP playground. With an enrollment of 705 kids the playground handles 180 kids ages 5-11 every 30 mins. During the hotter months there is not enough shade and in the rainy times, no temporary shelter. The planned Sports Court renovations provide a centrally located shade structure for all students that will provide access and visibility on all three of the outdoor play surface. Teachers and UP Elementary Staff will also use the shade as a safe area to monitor the entire playground during recess.

Additionally, the shade structure can also be utilized during special events like UP Carnival, YMCA ball games, Field Day UP All Night Campout, and Boosterthon.

#### Mud/Safety:

As the playground sits now, the west edge of the basketball court is nothing but dirt. After a rain event mud spills onto the basketball court creating a slippery condition that must be remedied before students can play on the court. Even after the field and playground areas are dry enough for activities this area remains muddy and students track mud onto the basketball court. The Sports Court project provides an improved surface buffer zone on the west side of the court and eliminates the safety/maintenance hazard that currently exists.

#### Student Safety:

The safety of our children should always be the highest priority. Nobody knows this better than city staff and council, and the improvements to the city parks and playgrounds are a testament to your commitment. Similarly, the UP Sports Court helps make the playground a safer place to play by providing more shade, a fence to stop balls from the court area and directs foot traffic around the active court, and improved visual security by providing a central vantage point for teachers to monitor students at play in all areas of the playground.

Thank you again.

City of UP P&Z and Council Members.

My name is Cheryl Collett. I live at 3700 Bryn Mawr, Dallas 75225 and have 3 kids at UP Elementary. I fully support the UP Elementary Sports Court. This project addresses many safety and usability issues on the UP Playground and is vital for the school and the community.

Please let us continue the sports court improvements. We need it for the following reasons:

**Accessibility:**

Currently the UP playground doesn't have sufficient improved surfaces for students with mobility limitations and access issues to fully participate with peers at play. This project creates a direct path from the existing ADA playground surface to shelter under a new shade structure and to the accessible ground surfaces through wheelchair accessible routes without having to go through the basketball court. This direct path will help students with mobility issues interact with their fellow students in a central area. The Sports Court renovations offer our children accessible routes, clear floor and ground spaces, and will make the playground safer and more accessible for all the students at UP and after hours for all children in our community.

University Park is one of the most used grounds facilities of any campus.

**Shade**

Additional shade is a huge need for children at play on the UP playground. With an enrollment of 705 kids the playground handles 180 kids ages 5-11 every 30 mins. During the hotter months there is not enough shade and in the rainy times, no temporary shelter. The planned Sports Court renovations provide a centrally located shade structure for all students that will provide access and visibility on all three of the outdoor play surface. Teachers and UP Elementary Staff will also use the shade as a safe area to monitor the entire playground during recess.

Additionally, the shade structure can also be utilized during special events like UP Carnival, YMCA ball games, Field Day UP All Night Campout, and Boosterthon.

**Mud/Safety:**

As the playground sits now, the west edge of the basketball court is nothing but dirt. After a rain event mud spills onto the basketball court creating a slippery condition that must be remedied before students can play on the court. Even after the field and playground areas are dry enough for activities this area remains muddy and students track mud onto the basketball court. The Sports Court project provides an improved surface buffer zone on the west side of the court and eliminates the safety/maintenance hazard that currently exists.

**Student Safety:**

The safety of our children should always be the highest priority. Nobody knows this better than city staff and council, and the improvements to the city parks and playgrounds are a testament to your commitment. Similarly, the UP Sports Court helps make the playground a safer place to play by providing more shade, a fence to stop balls from the court area and directs foot traffic around the active court, and improved visual security by providing a central vantage point for teachers to monitor students at play in all areas of the playground.

My name is Robert Brooks Cullum, Jr.. I live at 6600 Turtle Creek and have 4 grandchildren kids at University Park. I fully support the UP Elementary Sports Court. This project addresses many safety and usability issues on the UP Playground and is vital for the school and the community.

Dear Planning and Zoning,

I am writing today to voice my strong support for the final improvements to the sport court at University Park. Hundreds of UP families contributed to make the sport court possible. It is a terrific addition to the school. But the project is not complete.

The renovations to the sport court provide improved access for the disabled, shade and shelter for our kids, and improved safety for all the UP students.

I am a long time UP resident with four grandchildren currently attending UP. I strongly urge you approve these sport court improvements.

Robert Brooks Cullum, Jr.

Thank you again.
