

AGENDA MEMO
4/4/2017 Agenda

TO: Honorable Mayor and City Council

FROM: Elizabeth Anderson, Purchasing Manager

SUBJECT: Request Approval to Purchase Sewer Camera

BACKGROUND:

The Utilities Department needs to purchase sewer camera equipment. This is a planned replacement of equipment that was purchased in 2007. The old equipment would be sent to auction.

The Utilities Department uses this camera to explore the City's sewer pipes and diagnose and repair issues before they affect the City's residents. The equipment is used in conjunction with a specially modified van that is deployed on a daily basis. The existing camera system is obsolete and repairs are no longer supported by the manufacturer.

The new equipment would be a **Rovveer X 30 Truck Mounted camera system**. The camera equipment is available from Green Equipment Company for **\$183,236.69** via HGAC contract #SC01-15. The purchase price includes modifications to a 2017 Ford van that was approved by Council on March 7, 2017. Green Equipment Company would work with the Ford dealer to install the equipment in the van and deliver the fully outfitted vehicle to the City by August 2017.

A quote from Green Equipment Company is attached.

RECOMMENDATION:

Staff recommends the purchase of this camera equipment for \$183,236.69 from Green Equipment Company.
