

## **AGENDA MEMO**

### **11/5/2019 Agenda**

**TO:** Honorable Mayor and City Council

**FROM:** Jacob Speer, Director of Public Works

**SUBJECT:** Interlocal Agreement with DART for participation in the Street Repair Program

---

#### **BACKGROUND:**

DART funded the Street Repair Program in 1997 and 1998 to provide joint funding to partner cities for transit enhancement projects. Staff was recently notified that the program identified funds for the City in the amount of \$137,669 which are still available for approved projects. We would like to submit the 2018 traffic signal replacement project for this program. This project replaced traffic signals and all appurtenances at the Preston and Centenary, Preston and Villanova, and Hillcrest and Caruth intersections and meets program requirements.

To be eligible for the available program funds, DART requires the City enter into an Interlocal Agreement for the Street Repair Program.

Upon Council approval of the Interlocal Agreement, staff will submit a reimbursement request to DART in the amount of \$137,669. These funds are separate from, and in addition to, the funds available via the DART TRIP Program.

#### **RECOMMENDATION:**

Staff recommends Council approval of the Interlocal Agreement with DART for participation in the Street Repair Program.
