Zoning Change and Amendment Process

A request for a zoning change follows a two-step process designed to provide opportunities for citizen involvement and comment. The first step following the submission of an application for a zoning change is to schedule a public hearing before the Planning and Zoning Commission. Landowners within two hundred (200) feet of the subject site are notified of the Planning and Zoning Commission public hearing. They are provided this response sheet and are invited to attend the public hearing to express their support or opposition to the request. Second, the request is forwarded to the City Council for final action following a recommendation from the Planning and Zoning Commission. If the owner(s) of more than twenty percent of the land area within two hundred feet of the site submit(s) written opposition, then a three-fourths vote of all the eligible members of the City Council is required to approve the zoning change. These forms are used to calculate the percentage of the property in opposition.

NOTE: Site plans or zoning details proposed by the applicant, may change before or during a public hearing and after this notice. However, these changes must be minor and more restrictive. If they are not minor and more restrictive, another notice must be made.
